

## THE SWORN CIRCULATION OF THE DAILY CAPITAL IS 3,800

### GOOD COUNTRY ALONG ROUTE

A. and G. W. Contractor Describes Districts Road Will Traverse.

### MIXED FARMING AND GRAZING

Soil is Exceptionally Rich, Says T. K. Wright, and There is Only a Little Muskeg.

With the distinction of being the inmost north railroad contractor in Alberta, Mr. Thomas K. Wright, who has a contract for clearing twenty miles of the right of way of the Alberta and Great Waters Railway in the city today, the contractor which Mr. Wright has covers a stretch of country 70 miles north of Edmonton, and he now has a force of men at work there.

"The country is as fine a stretch as there is in Alberta as far as I have gone," he said when lured into giving his views of the country the railroads would pass through. "Of course I would not say that it would appeal largely to the southern Albertan, but it is the best country that can be got for mixed farming, and I know from personal experience that there are many settlers in the States who would be glad to get there. The soil itself is exceptionally rich and is just right for the growing of coarse grain and roots, while there are any quantity of rich hay meadows and the whole country abundant in peninsulas, making it a fine grazing country."

Only Two Small Muskies.

Mr. Wright was very much surprised when he passed through the country some days ago to see what good land it was. When he went up in the winter he was told that the whole route was through muskegs, but he found this is not the case.

"If my experience is repeated, the further north the road goes the better country it will pass through," he said. "I was told that my contract took in a lot of muskegs by people who thought they knew all about the country, but I find there are only two small muskegs there and they will not cause any trouble."

Mr. Wright also spoke well of the large amount of timber to be got along the line.

The country is somewhat wooded with poplar and spruce," he said, "and the poplar, which is of fairly good makes excellent material for the building of shacks, barns, etc. The spruce is also large enough to satisfy the needs of the settlers, and altogether there is an abundance of timber for both building and fuel purposes."

### Land Being Settled.

Settlers are also finding their way into the country, and are increasing numbers. As far as Mr. Wright has gone he found settlers and although after the first forty miles it can hardly be said to be thickly settled, it is gradually filling up, and is even now well settled. Many of the settlers have a very respectable amount of clearing done and are taking in implements this year to break the soil. One man net on the trail was taking in two new settlers with full outfitts as well as taking along a number of implements for the country.

"All the settlers I have met are jubilant that work on the road has not been stopped to any appreciable extent," said Mr. Wright. "They are greatly in need of railway facilities and I am sure from present indications that there will be a great influx of settlers into that part of the country this year."

For sportsmen Mr. Wright claims the country will prove a veritable Eldorado. "Moose are almost as thick at cattle on a southern Alberta ranch," he said; "while bear, ducks, geese, grouse and even swans are there in great numbers. It will be one of the best game sections on the world."

Brass Candlesticks, just imported. Jackson Bros.

### FIVE DOLLAR GOLD PIECES

The Canadian Mint Will Turn Out a New Coin.

Ottawa, April 5.—The Canadian made rapid headway with minor government legislation at the morning and afternoon sittings today, several bills being advanced a stage and resolutions upon which bills were passed into law. These included Mr. Laurier's motion to amend the currency act in connection with which the Minister of Finance announced that the Canadian mint will turn out five-dollar gold pieces of the same intrinsic value as American five-dollar pieces.

### Will Scout the Scouts

Toronto, April 5.—Complaints from farmers in the Don Valley have come to the county constables that the boy scouts have an utter disregard for fences or property, and have done much damage to both in their recent rampages, particularly on Good Friday, when they tore down a number of fences.

Some of the people who have complained said that not only the boy scouts do damage themselves, but they are followed by a number of outsiders who arm themselves with rifles and shoot birds and are a menace to the public safety. Hereafter when the scouts scout, they will, in turn, be scouted by a stray county constable or so.

### PEOPLE TO CHOOSE THE LIBRARY SITE

Council Will be Asked to Submit By-Law to Raise Money for the Purchase.

At its meeting this evening the council will be asked to submit to the ratepayers a by-law to authorize the expenditure of \$25,000 for the purchase of a library site. This was decided at a meeting of the Library Board yesterday afternoon. The question of location was discussed but no definite site chosen, it being decided that along with the by-law a plebiscite should be taken on this question.

May Lee submitted to the board the options he secured on the two College street properties. One has been taken on part of lot "A" west of the Edmonton Club, for \$1,000. This property forms part of the Jas. McDowell estate and has a frontage of 50 feet with a depth of about 175 feet. An option was also taken on the lot adjoining to the west of the above and owned by Mrs. Wilson. The option on this lot is for \$1,500, it having a frontage of 50 feet by depth of 175 feet. A letter was received from Ross & Keeler offering until May 1st lots 68, 69, 70, 71 Block 1, H.R.R., for \$1,000. The property is situated on Second street between the College avenue extension and Victoria Avenue. Part of it is on a level and the rest on a slope which would be converted into a park in the event of the property being chosen. The writers pointed out that there would be no obstruction to the view from this point.

It was decided not to ask Mr. Carnegie for a grant until the by-law was passed and the site chosen. The conditions of a grant by the multi-millionaire are that an amount equal to ten per cent of the grant be guaranteed towards maintenance, although there are some instances in which a grant of \$75,000 was made upon cities agreeing to put up \$5,000 annually. The council has power to levy one-quarter of a mill to this purpose. This would amount to between \$6,000 and \$7,000 on the 1910 assessment.

May Lee suggested that if the council pass a by-law covering the case, it should be framed so as to prevent any future governing body reducing this amount.

It was Ald. Lundy's opinion that the provincial government could empower the library board to demand the same rights in this respect as the school board enjoys.

Viola Cream given your skin that clean, healthy tone every complexion should have. 25¢, Edmonton Drug Co.

### FIGHT FOR LOW RATES

Board of Trade May go to the Railway Commission.

### CONTEST VANCOUVER CLAIMS

Will Join With Others in Resisting Western City's Demands for Special Rates.

At a special meeting of the Board of Trade held yesterday afternoon it was decided to keep up the fight to secure better freight rates on goods coming direct from Fort William and other points east. The wholesale and the transportation section of the board has delegated to consider the whole question of freight rates as they now affect Edmonton, and if necessary to take the question up before the Railway Commission.

The Board will also protest against the request of the Vancouver board for rates on goods over the mountains equal to those charged from the east to the prairie cities. Vancouver also wants a rate on oats and wheat from Calgary equal to that from Calgary to Fort William, and also equal passenger rates. The local board will not dispute the two last mentioned, but will join with the Board of Trade of Calgary, Leithbridge, Medicine Hat, Moose Jaw and other places in urging their case before the Railroad Commission that is now hearing the requests from the Vancouver board.

Canadian Cadets Invited.

Ottawa, April 5.—Militia department has received a cablegram from the Lord Mayor of London inviting Canada to send a cadet team to Great Britain to take part in the Empire Day match.

This match will be over miniature rifle ranges, and the department has decided to send a team of three Canadian cadets. The three will be chosen by the scores made in the miniature rifle series of the Canadian rifle league which has been going on for some time.

### TRouble OVER NOTE

Led to Theft Charge in the Police Court.

A. J. Layton, a farmer of Miller, was charged in the police court this morning with the theft of twenty cattle from F. E. Shaw of Belmont, a settlement to the north of this city. It appears that some time ago Shaw purchased some horses from Layton and paid part cash and gave a promissory note for the remainder. This note is not due until next February. A short time ago, however, Layton, without saying anything to Shaw, went to the latter's place and drove off all the cattle, although he had no claim upon them. Shaw was away at the time, and when he returned he laid the charges of theft.

Layton now claims that he took the cattle because he considered the security that Shaw had given him as insufficient.

The Mounted Police arrested Layton yesterday, and brought him to the barracks. He was released on \$50 bail yesterday afternoon, and the case turned over to Magistrate Cowan. A. C. McDonald, of Robertson Dickson and McDonald, is appearing for Shaw.

### Tonight.

Friendship Lodge, No. 7, I.O.O.F., meets in Norwood Hall.

### WEATHER FORECAST.

Saskatchewan and Alberta: Fine and mild today and on Wednesday.

Viola Cream given your skin that clean, healthy tone every complexion should have. 25¢, Edmonton Drug Co.

### WRIT NOT YET ISSUED

Nothing Further Has Been Heard From Mr. Alfred Hawes.

Engineer Tells Parliamentary Committee It Should be Done.

FROM HERE TO LAKE SUPERIOR

Mr. Louis Coste Says Such a Canal is Needed to Preserve the Grain Carrying Trade.

Although it is now over a week since it was announced that instructions had been given to issue a writ against J. K. Cornwall, member of Peace River, for the \$250,000 claimed by Alfred Hawes of Toronto, the expected writ has not yet made its appearance. Mr. Henwood, who is presumed to be still acting for Hawes, says he has nothing to say on the subject, and Mr. Cornwall is at present in Calgary.

The general opinion among legal men in the city is that Hawes is practically forced to issue the writ in order to clear himself of any charge of attempted blackmail which might be preferred against him.

Agged Hero Was Honored.

St. Catharines, Ont., April 4.—Mayor McElroy at the council meeting last night presented the medal of the Royal Humane Society to Captain James Gallagher for conspicuous bravery in rescuing Margaret Thors from the hydraulic raceway February last. Gallagher is over seventy years of age and the waters of the raceway are particularly swift and treacherous in the winter months.

White had considered the matter only from an engineering point of view and had not made an estimate as to the cost of construction of the first fifty miles, he believed that the total cost of the canal from Lake Superior to Rainy River could not exceed twenty million dollars. Mr. Coste also declared that sooner or later such a canal would be demanded by the country, not only along this route but from Lake Superior to Edmonton, otherwise in his opinion Canada would lose the grain carrying trade of the country.

Mr. Louis Coste is a brother of Mr. Eugene Coste, who is well known throughout this province. He himself has a very thorough knowledge of the resources of this province and both brothers have expressed the greatest faith in the future of the gas and oil deposits here.

PROSPERITY EVERYWHERE

S. H. Smith Tells of How Found Things in the East.

HIGHER WAGES THE REASON

Railway Officials Say Large Revenues Necessary in Order to Meet Demands of Employees.

Chicago, April 5.—Bankruptcy or an immediate increase in freight rates was the cry sent up from the general offices of the big western railroads yesterday, following the boost in wages voluntarily given by the employees of the Pennsylvania and the Reading lines, which action has already been felt in the increased uneasiness in the western railroad wage situation.

"In order to maintain our equipment, pay our dividends and at the same time increase our wage schedule," said vice-President E. W. McKenna, of the Milwaukee road, "we must increase our receipts. There is but one way, and that is to raise our freight rates."

"Shippers protest at the very mention of such a thing. It is time they realize that, as the railroads are the life-blood of the country, unless they are kept up to the standard demanded by heavy traffic, the country which they serve will feel the result, and affects all, including nourishment, will grow sick and die."

"The panic of 1907 will be only a faint echo compared to the panic we are facing unless conditions are allowed to adjust themselves. The roads have but one alternative. They must increase their revenue through higher rates."

"Probably only 25 per cent of the 250,000 employees of the western lines have presented their wage demands," said Mason McDonald. "The remaining 75 per cent, however, will unquestionably be settled by arbitration and without strike." The action of the Pennsylvania in increasing wages probably will have some effect on western lines. Freight rates, however, will have to be raised to meet the increased outlay imposed on the roads.

"To offset the average increase of 6 to 8 per cent, in the wages of employees so far granted by western roads, freight rates would have to be raised from 7.55 mills to 7.80 mills over a course of three miles and a fraction."

Spring Suits you'll find hard to pass at Kelly & Moore's.

Scottish Rite Rings in 14k gold, \$10, complete, our own make. Jackson Bros., Jewellers.

### BUILD CANAL TO EDMONTON

Government Well Represented at Opening of the Horse Show.

Engineer Tells Parliamentary Committee It Should be Done.

FROM HERE TO LAKE SUPERIOR

Mr. Louis Coste Says Such a Canal is Needed to Preserve the Grain Carrying Trade.

The government buildings are practically deserted this morning insfar as executive officials are concerned, a general exodus to Calgary having taken place yesterday in order to reach the southern city in time for the Horse Show opening there today. Among those who went down were His Honour Lieutenant-Governor Bayley, Premier Rutherford, Hon. Duncan Marshall, Minister of Agriculture; Mr. Hirschauer, the departmental minister, and Superintendent of Farms and Institutes Craig. In consequence of their absence there is very little doing at the buildings outside routine business.

Peruvian Colors Insulted.

Quayaguil, Ecuador, April 5.—Antipasca riots occurred during the night. Moles attacked the Peruvian legation at Quito, and the consul here, tearing down the Peruvian colors and dragging them in the dust. Many Peruvians were assaulted and their property was destroyed. The rioters demanded war with Peru. The streets were patrolled yesterday by the military, both here and at Quito, and the disturbances are being held in control.

ENQUIRIES COMING IN LARGE NUMBERS

Publicity Agent Hotchkiss' Mail This Morning Was a Record One.

"The mail this morning brought the biggest batch of enquiries I have had yet. The majority of these are from the Old Country, where the people seem very anxious to know all about Alberta," said Publicity Agent Hotchkiss this morning. On his table were a batch of letters from all over the United Kingdom, as well as a great many from the States.

As a matter of fact the one mail this morning brought more inquiries than Mr. Hotchkiss has ever received before. Included in the enquiries from the States are three from California, two from Oregon and five from Washington. Eastern Canadians are also showing signs of having caught the spring fever and many enquiries are being received from there, more especially from the Maritime provinces.

NO Closer Tariff Relations.

Ottawa, April 5.—It is believed at Washington that the tariff negotiations between the United States and Canada will not be carried to a conclusion. A strong interest in the railroads does not desire any closer trade relations with Canada.

Coming to Edmonton.

London, April 5.—The council of the Western Canada Fund (Church of England), has accepted Rev. W. G. Boyd, eight other clergymen and four laymen for the dioceses of Calgary and Edmonton. The fund now totals \$1,000. An offer of 10,000 pounds has been made on certain conditions.

Who Will Be the Whip?

Ottawa, April 5.—In the event of the early retirement of George Taylor, the chief Conservative whip, the names of Gooch, Kootenay, Crofton, West Elgin, and Peterborough, are mentioned as likely successors.

May Adopt New Plank.

Winnipeg, June 5.—At the Provincial Liberal Convention which opened here last night, the report was carried that a resolution will be moved favoring the adoption of an initiative and referendum plank in the party's platform. A number of influential men in the party are favorable to the plank.

Winipeg, June 5.—At the Provincial Liberal Convention which opened here last night, the report was carried that a resolution will be moved favoring the adoption of an initiative and referendum plank in the party's platform.

The major received a letter from Premier Rutherford this morning in regard to the C.P.R. high level bridge. The premier stated that the cabinet voted \$175,000 for this purpose last fall, the money to be paid over a period of three years. The railway had advised of this action in the fall, and the government still proposed to carry out this arrangement.

Major Lee also stated that although the city was unable to make their agreement with the company by the first of this month, they were now in a position to guarantee their proportion of the cost. The money is now in the bank, and will be paid out as it is required, thus saving the city extra interest charges.

Our Special Brand Olive Oil is the sweetest and richest oil you can get, go a bottle. Edmonton Drug Co.

Come and see how our shoes differ from others. Kelly & Moore.

### MORE LINES ARE NEEDED

Telephone Extensions will Probably be Large This Year.

NEW SUBSCRIBERS ARE MANY

Line is Urgently Needed Between Stettler and Castor and Castor will Probably be Provided For.

Although the government telephone department has not yet outlined the work which will be undertaken this year, being compelled to wait until the estimates are passed at the close of the session, the extensions which will be made when the department actually begins work will be larger than those of any other year. A certain amount of extending is being made every day in places where the lines are already installed, but this work consists mainly of adding new subscribers to the service. The work to be undertaken after the estimates are passed will be the extending of trunk lines through the various farming communities in order to place the farmers in closer touch with their neighbors and the larger centers.

One of the new extensions of this sort which will probably be made between Stettler and Castor as the latter place is considerably handicapped at the present time by having no communication with the outside other than the train which leaves Stettler daily.

Will Look After Canadians.

Albany, April 5.—The Canadian Society of New York, formed to promote social intercourse among Canadians, has filed incorporation papers with the Secretary of State. The Society will also provide relief for Canadians in need of assistance. Among the directors are James Douglas of Spuyten Duyvil, Wolfert Nelson and William S. Champ of New York and Alfred A. Watts of Plainfield, N.J.

Ottawa Y. M. C. A. Exempt.

Toronto, April 5.—The divisional court has allowed the appeal of the Ottawa Y. M. C. A. from the decision of the Manitoba State and has declared that the association need not pay taxes on the 67 bedrooms in its new \$250,000 building. The income from these bedrooms is \$11,000.

The divisional court holds that the providing of clean, well-ventilated bedrooms is for the physical and mental well-being of their occupants and so within the privileges of the association.

NOW UP TO C.P.R. TO BUILD BRIDGE

Province and City are Ready to do Their Part—Premier's Letter to Mayor.

The major received a letter from Premier Rutherford this morning in regard to the C.P.R. high level bridge. The premier stated that the cabinet voted \$175,000 for this purpose last fall, the money to be paid over a period of three years. The railway had advised of this action in the fall, and the government still proposed to carry out this arrangement.

Major Lee also stated that although the city was unable to make their agreement with the company by the first of this month, they were now in a position to guarantee their proportion of the cost. The money is now in the bank, and will be paid out as it is required, thus saving the city extra interest charges.

## BONDS AND BOND SALES

We have heard a good deal of late in this part of the country about bonds and bond sales. The subject is one that very few people can lay claim to much information in regard to, and it is accordingly not difficult for politicians to make capital out of the fact. For instance, surprise has been expressed that the A. & G. W. bonds carried 5 per cent. To some people it is clear evidence of a crooked deal. In this connection, the leading article in this week's Monetary Times is of interest. It is pointed out there that great changes are taking place in the bond market, that the demand for more speculative securities is having a very decided effect on the debentures of public bodies and doubt is expressed whether these are being made sufficiently attractive to cope with the industrials giving a return of from five to six per cent. Ontario municipalities are yielding, the Monetary Times points out, approximately one per cent. more than they did a year ago.

An article in Bradstreet's of March 12 also has a very decided bearing on this question. It has been the custom in the past to sell New York City bonds bearing 3½ and 4 per cent. But these have started to sell considerably below par and as Bradstreet's notes "only after careful consideration and consultation with leading bond dealers, conservative estimates assured in the bidding," the latest city issue carries 4½ per cent. Yet the security for this is admitted to be about the best in existence. The departure brought considerable criticism, which the mayor resented. Commenting on his remarks, Bradstreet's says: "There is much reason in what the chief executive of the city remarks concerning baseless talk of an unfavorable kind about the city's credit and the effort which this had upon capital when issues of the city's bonds are concerned."

In the course of the A. & G. W. inquiry, it is certain that light will be thrown upon the circumstances surrounding the sale of the railway bonds. To some people it is very surprising that bonds which brought par to the company could later be disposed of by those who purchased them at a long advance. But a study of stock exchange conditions reveals that such a profit is by means unusual, even among Canadian securities. Winnipeg four per cents., which netted the city 9½ per cent. are now selling in London at 107. The last Edmonton 4½ per cent. brought the city a record price of 101.41½, which so exceeded the general run of previous sales as to be the subject of much congratulation. These are now bringing 106. The purchasers of these bonds take a chance and if they make a considerable profit, it doesn't follow that there has been loose work done. In fact, the regulations of the stock exchange are too stringent to make it possible for anything to have happened such as has been charged in connection with the A. & G. W. bonds. When the name of a man like J. P. Morgan is associated with the transaction one would think that there would be some hesitation about making such suggestions.

The Saskatoon Press publishes cuts of the capital buildings at Regina, which show them to be much further advanced than those at Edmonton, despite the fact that an earlier start was made on the latter.

Mr. R. B. Bennett, M.P.P., discussed "The Perils of Democracy" at the Calgary Y. M. C. A. yesterday. It is to be hoped full justice was done to one very decided peril. We have seen peerless orators carry people off their feet and lead them to form opinions which a month later, as they sit back and think matters over calmly, they are totally at a loss to account for. These hysterical influences are perhaps the most powerful force to good government that we have under a democracy.

Puck has good news for the readers of comic papers. It has taken the lead in inaugurating a most desirable reform. It proposes in the future to abolish so far as its columns are concerned, the following old stand-bys:

The mother-in-law joke, the office-boy-ball-gag-grandmother's funeral joke, the jag-coming-home-to-his-wife joke, the Jew-setting-fire-to-his-store joke, the boarding-house-grub-joke, the actors-walking-home joke, the father-kicking-out-daughter's-lover joke, the cannibals-cooking-missionary joke, the man-under-busted-auto joke, the spring-pot-editor joke, the farmer-buncle-steerer-gold-brick joke, the wife-waiting-for-husband-with-rolling-pin joke, the few-failure joke, the southern-colonel-whiskey joke, the cowboy-tender-foot-dance joke, the coon-and-razooke, the young-wife's-first-biscuit joke, the tramp-afraid-of-water joke, the Fourth-of-July-battered-kid joke, the fisherman-lair joke, the farmer-blowing-at-the-gas-joke, the despotic-jean-rimmed-judge joke, the chorus-girl-sunburned-joke, the mannequin-hotel joke, the tramp-old-man-hat joke, the old-world-maid-chicken-coop joke, the walking-the-hab-at-night joke, the Pittsburgh-smoke joke, the Chicago-big-feet joke, the sleepy-Philadelphia joke.

The appointment of Mr. E. Trowbridge to the post of deputy provincial secretary, made vacant by the resignation of Mr. H. W. Riley, is an excellent one. Mr. Trowbridge is a very faithful and experienced civil servant, having been in the employ of the territorial government at Regina for six years, coming to Edmonton with the formation of the province. The principle of promoting those who have shown their capacity in subordinate positions to those which are more responsible and lucrative is a good one, and the government should be encouraged in following it.

Alberta may yet have a Dominion premier. The Toronto World is in search for Mr. Borden's successor, and says:

"Another mentioned is C. A. Macmillan of Alberta. As an all-round man he has no superior in the House, and he is respected for his virtues as well as for his attainments."

## CARELESS COMMENT

Norwood people are decided that the incendiary must go. Better a barn-yard odor in one part of the city than a barnyard state all over the town.

Will these convicts never learn that it is no use trying to escape? A dash for liberty means a dash of lead, and then they are dashed sorry they ever dashed.

The Beaver Lake Debating Society has decided that ambition does more good than harm in the world. A good many people around Edmonton may enjoy a clearer conscience now.

A burning question is the cleaning of the lawns and backyards of the city of the winter's accumulation of rubbish. It is a case of rake-off on real estate. And the resultant smoke, for once, will be in a good cause.

A. B. Spicer is the name of the speaker in the name of the proposed Hudson's Bay and Pacific Railway. He is expected at Prince Albert this week. No doubt he intends to make the report that the line is to be built a little Spicer.

It is said that some on the automobile owners of the city are going to organize in protest against being "pinched" for exceeding the speed limit. The originators of such a movement should be tied to a post and their own machines huttied into them a few times, in order to knock such ideas out of their heads. It must be remembered that the pedestrians far outnumber the motorists, and lives should not be endangered for the autocratic pleasures of a few.

## What Others Say

### Who Is The Guilty Party?

Vegreville Observer.  
There are those who think that Richard Bedford Bennett, when Premier Speaker with his sarcasm, "the jungle animal for Calgar," engineered the whole of the trouble in the legislature. The Observer doesn't believe it. Mr. Bennett, clever as he is, has never proven himself to be a remarkable master of political strategy. That Mr. Bennett should reach out and get whatever he can in the way of credit for the business is only to be expected and is also quite right and proper. But as for doing the primary investigating, making known the results of it to the Legislature, and

stirring up the whole thing generally, the public must look to Mr. Cushing and Mr. J. R. Boyle, and not to Mr. R. B. Bennett.

## Irresponsible Statements

Lacombe Globe.  
As we remarked before, it is too bad the nonconformist house at Ponoka is not open for business. The Red Deer News man in a recent issue remarks: "The government (Rutherford) stands charged with the most flagrant acts of corruption." The editor of the News should know better than to make silly remarks like the above. Up to the time of our going to press today one has had the temerity to charge the Rutherford government with corrupt acts. Bennett has not gone as far as that, and The Alberta, the paper responsible for most of the feeling against the government, dares not go so far as to say that body has been guilty of corrupt acts. It is only irresponsible parties who can afford to make statements such as have appeared in our esteemed contemporary.

## THE FIRST SALE

From "Keeping Store in Tepe Jaune Cache," by Wallace Finch and L. Darby, in April "Canada Monthly," formerly Canada-West.

The following morning we jumped up with alacrity and pushed on with renewed vigor, up and down hill, through seemingly impenetrable forest till about two o'clock when we emerged upon the Fraser—we had arrived at Tepe Jaune Cache! It did not look like the metropolis of a country three hundred miles in diameter—just a clear space near the river trodden and scarred by former camps while some distance back the tops of a few tepees appeared above the bushes. While we were unloading and putting up the tent the whole population, about a score and a half breeds, gathered on the hill close by and watched us intently. It was an untried group, and Frank tried to get a picture, but as usual they melted away before the camera.

Breakfast was early next morning. Jim and Frank were out to pack their bags, for a short prospecting trip. Will was left alone. Alone with the moustache, a few half breeds with whom he could talk, and the smoke from a single white man's camp across the river. But before night the loneliness was broken by the arrival of two prospectors who melted away before the camera.

Breakfast was early next morning. Jim and Frank were out to pack their bags, for a short prospecting trip. Will was left alone. Alone with the moustache, a few half breeds with whom he could talk, and the smoke from a single white man's camp across the river. It is said that some on the automobile owners of the city are going to organize in protest against being "pinched" for exceeding the speed limit. The originators of such a movement should be tied to a post and their own machines huttied into them a few times, in order to knock such ideas out of their heads. It must be remembered that the pedestrians far outnumber the motorists, and lives should not be endangered for the autocratic pleasures of a few.

## Refrigerator Car Service

Winnipeg, April 5.—Arrangements have been made with the Canadian Pacific, Northern and Grand Trunk Pacific Railway Companies to constitute a refrigerator car service, on the schedule provided for the heated cars during the winter months, until the summer iced refrigerator car service commences. In the past some shippers have experienced difficulty in obtaining refrigerator service between the lapse of the heated car service and commencement of the iced car service, and this arrangement has been made with the railway companies so as to avoid anything of the kind this spring.

In the past some shippers have experienced difficulty in obtaining refrigerator service between the lapse of the heated car service and commencement of the iced car service, and this arrangement has been made with the railway companies so as to avoid anything of the kind this spring.

## Coal is Only Lignite

Ottawa, April 5.—Geological survey somewhat discounts the reported discovery of coal in Northern Ontario. It is lignite, they say, and the bed has been known here to the survey since 1875. Its commercial export value is doubtful.

## "TEDDY" WILL NOT SEE POPE

### Would Not Accept Any Conditions Laid Down by Vatican.

## DEMANDED PERFECT FREEDOM

Vatican Authorities Expressed Hope That Nothing Would Happen as in the Fairbank's Case.

Rome, April 4.—The determination of Mr. Roosevelt to forego the audience with Pope Pius X rather than subscribe to the conditions imposed by the Vatican, has created a sensation here. This unfortunate and unexpected incident overshadows every feature of the distinguished American's visit to the Eternal City.

Mr. Roosevelt sought an audience with the Pontiff through American Ambassador Liesmann and received word that the Holy Father would be delighted to receive him, but the answer was coupled with an expression of the hope that the audience would not be prevented by any such regrettable incident as made an audience for Vice-President Fairbanks impossible. Mr. Roosevelt in turn stated that he could not accept any stipulation limiting his freedom of conduct.

To the latter message the Vatican made answer that an audience could not take place excepting on the understanding first made known on March 29th. Mr. Roosevelt then sent Ambassador Liesmann the following cable message: "Proposed presentation is of course now impossible."

## Will Get Another Name

Winnipeg, April 5.—There are two railway stations in Alberta called Acme, one on the Langdon branch of the Canadian Pacific, and the other on the Canadian Northern extension beyond Edmonton.

With a view of preventing confusion bound to result from two stations of the same name in the same province, the shippers section of the board of trade took the matter up and have arranged with the Canadian Northern to change the name of Acme station on their line as soon as possible.

## MORMONS FOUND MEXICAN COLONY

Take Up 35,000 Acres of Semi-arid Land Already Served by an Irrigation System.

Del Rio, Texas, April 5.—A colony of several thousand Mormons is to be located upon a tract of 35,000 acres of irrigated land situated in Mexico, just opposite Del Rio, in Coahuila. The arrangements for the establishment of this colony have already been made with the leaders of the church in Utah and the new settlers will begin to arrive as soon as the homes can be prepared for them. The Mexican government is said to be giving the project substantial support and encouragement. The land that is to be used for colonization purposes was owned by General Lorenzo Trevino, who has been active in the irrigation development for several years. The irrigation system already in operation extends to all parts of the big tract, and large crops of rice, corn, cotton and other products are being raised.

The Mormons have several colonies in the semi-arid regions of the State of Chihuahua, Mexico. They have converted portions of the desert into veritable oases and are noted for their prosperity and good citizenship. The water supply for irrigating the 35,000 acres that are to be colonized is at present obtained from the San Diego river, and that stream should not provide a sufficient quantity of life-giving fluid, and unlimited amount can be obtained from the Rio Grande, which is to be dammed for power purposes.

It is planned by the colonists to establish a number of large industrial establishments in connection with their farms. These will include a flour mill, cottonseed oil mill, saw factory, flour mill, cotton plant and other manufacturing concerns. Under concessions that the Mexican government has granted for the establishment of this colony the new settlers will be permitted to enter their household goods, farm implements and machinery and other articles for domestic and commercial use free of charge.

It is to be hoped that the new settlers will be successful in their efforts to establish a colony in Mexico. The climate is favorable for agriculture and the soil is rich and fertile. The people are hardy and willing to work. The cost of living is low and the opportunities for employment are good.

"Purvis Sells It For Less"

## Wash Goods Specials

If you've made up your mind as to exactly the style of wash goods you wish for your home, you'll be sure of finding just that style at Purvis'. If you're waiting to see something that strikes you just right, then these large Purvis stocks furnish just the variety of selection that can't fail to enthuse you. Here you'll find perfect style and becomingness, with carefully selected materials at whatever price you pay—and it's less than you'll have to pay elsewhere, always. We mention a few special values for this week. See them in the windows.

## Dress Muslins 10c

## OLD PROVINCE IS LOSING FARMERS

Statistics Show That 19,000 People Left Rural Districts in Quebec

Last Year.

Quebec, April 5.—Members of the provincial legislature have been surprised to learn statistics from the federal agent of colonization that during the year 1909 at least 19,000 people have left their homes in rural districts of the province of Quebec, the great majority having left the land frontiers for cities.

The mortification of the legislature is that the departing people were for the greater number of the cities of Montreal and Quebec, and also for the large towns, which is almost as startling from the farming standpoint as migration to another country.

The startling part of this, as viewed by the members of the legislature, is that of the foregoing total, at least 10,000 people left Quebec for the United States.

There is a total of 600 parishes in the province; and of these statistics have been received from 600 parishes, which means an average of 31.71 departures per parish, and 16.23 for the United States.

These figures are being prepared by Mr. Rene Dupont, the federal agent of colonization, and he thought it inter-

esting to forward them to one or two members here during the session.

Those who have received them say they did not have any idea there was such a percentage of departures from rural districts.

Total departures ..... 19,092

The recapitulation is as follows:

For the United States ..... 10,031

For the Northwest ..... 711

For other parts of Quebec ..... 5,051

For other parts of Canada ..... 3,320

It is remarkable that the departures for other parts of Quebec, by far the greater number were for the cities of Montreal and Quebec, and also for the large towns, which is almost as startling from the farming standpoint as migration to another country.

The startling part of this, as viewed by the members of the legislature, is that of the foregoing total, at least 10,000 people left Quebec for the United States.

There is a total of 600 parishes in the province; and of these statistics have been received from 600 parishes, which means an average of 31.71 departures per parish, and 16.23 for the United States.

## JACK JOHNSON, HIS BIRTHDAYS

A Table Showing How the Champion of the World Has Spent the Different Anniversaries of his Birth.

Jack Johnson, the negro heavyweight who is soon to fight Jim Jeffries for championship, was 32 years old last week, having been born in Galveston, Texas, March 31, 1878. His birthday anniversaries have not been all of the rose-tinted variety, as the following record shows:

20th birthday—Working at odd jobs and dreaming of becoming a fighter.

21st birthday—Has realized his ambition by standing up before Joe Choynski two days ago.

22nd birthday—In San Francisco, where his ability as a fighter was beginning to attract some attention.

23rd birthday—On his way from the West to Boston to meet Sandy Ferguson, whom he defeated in a tennis round bout.

24th birthday—On his way west to meet Sam McVey, whom he knocked out in the 20th round in San Francisco.

25th birthday—In San Francisco, recovering from the effects of his unsuccessful battle three days previously with Marvin Hart.

26th birthday—In New York, enjoying the proceeds of several victories recently won in short bouts in eastern cities.

27th birthday—In Australia, having a rather hard time earning enough to furnish meal tickets for himself and manager.

28th birthday—In England, trailing Tommy Burns whom he was to meet and defeat in Australia later in the year.

29th birthday—In New York, drawing \$1,000 a week appearing in vaudeville at the Victoria Theatre.

30th birthday—On his way from the West to keep out of jail and incidentally trying to make up his mind to begin training for the Jeffries fight.

## THIS BOOKIE WAS A WELCHER

Williams Parleyed a Bet on Two Horses and won \$31,000. Beckers Wants to Settle for \$8,000.

The alleged "welching" of a well-known bookmaker for approximately \$1,000 caused a wave of excitement at Jacksonville. The case is related as follows: Dick Williams, who was racing a pretentious string of racers at Montréal, started two short ones, Friday, Colonel Ashmeade and Jane Swift. The pair were practically neglected in the local races. Williams, however, wagered a large proportion of his money in St. Louis, where it was handled by Kid Beckers. Friday Beckers is said to have accepted a \$200 commission on Colonel Ashmeade with the understanding that if the Colonel won the whole amount was to be played back on Jane Swift. Colonel Ashmeade was as good as 13 to 1, while Jane Swift was to be had at 6 and 7 to 1. Both won with ridiculous ease. All day Saturday, Williams says, he endeavored to get a settlement with Beckers, but the latter insisted upon investigation. It is understood that Beckers refused to pay the bet, which in all aggregated \$31,000, but offered to compromise at \$8,000.

## BURRIDGE FOR VANCOUVER

We notice in the done of the Vancouver correspondent of the "Sporting News," that Burridge is one of Brown's catchers. This will be good news to Deacon White.

AMATEUR ATHLETICS

TODAY  
Soccer Football Match: S.O.C.  
E. vs. Hibernians, at the Exhibition Grounds.

Meeting  
Lacrosse enthusiasts will meet at the Y. M. C. A. at 8 p.m. to organize for the season.

## CITY AMATEURS HOLD MEETING

The Circuit Will Comprise the Following Clubs: Y.M.C.A., Wholesale, I.C.A.A.A., Wholesalers and Woodbines. Alf. Fidler is President.

The City Amateur Baseball League held an extended meeting in the Y. M. C. A. last evening with the following clubs represented: Norwood, J. C. A. A. A. A., Wholesalers, Y. M. C. A. and Woodbines.

H. McGill acted as president, Mr. Drayton as secretary, Alf. Fuller repeated that he had interviewed the Edmonton baseball club from last year, and also about obtaining Diamond Park, if required. The Edmonton executive promised to meet the amateurs half way in all matters.

Seretary Drayton read the financial report which showed a small deficit of \$250. The report was adopted.

The meeting then dissolved the City Amateur League of 1909, and immediately resolved itself into a committee to re-organize with the stipulation that the new organization assume any liabilities that were incurred by last year's league.

The election of officers resulted as follows:

Hon. president—Chas. E. Taylor; Vice-president—J. W. Ward; Vice-president—Alf. Fidler; Vice-president—H. McGill; Secretary-treasurer—W. T. Mathews.

There is also a board of control, consisting of one representative from each team, to be elected by the respective clubs, making up the league. This board will choose the umpires, and appoint an official scorer. Jack Winchester was mentioned for the latter position, and the meeting was unanimous in desiring that he accept the onerous task.

Chas. E. Taylor, honorary president of the league, has kindly offered to fix up Taylor park, and it is likely a large number of the scheduled games will be pulled off at the car barns.

The question of the make-up of the league awakened great discussion, and the respected merits of a four club, and a five club system, were discussed and pro and con. Each delegate was satisfied in his own mind that his club was of championship calibre and the meeting finally decided to admit the five clubs represented, to membership.

The question of entrance fees, schedule, drawing up of by-laws, and the fixing of a guarantee to finish the season, were left to the board of control, which will meet, along with the officers on Tuesday, April 12, at the Y. M. C. A.

### Mare About Larry McLean

Cincinnatus, O., April 5.—President Hermann of the Reds today made public his letter to Catcher Harry McLean. He points out to the famous backstop that no deal whatsoever can be made by the club for McLean's transfer and that when McLean rejects to the notoriety he has received he must remain here if he had kept the rules, this notoriety would not have come to him. Advice from Hot Springs tonight forecast that McLean will be back with the team before the season begins. All day yesterday he held little talks with Griffith and Griffith is quoted as saying that if he does take back the catcher, it will be at a figure considerably below what McLean received last season.

### New York is Ready

It has been announced in an unofficial way that the line-up of the New York Nationals on the opening day will be Meyers, catcher; Mathewson, pitcher; Merkle, Doyle, and Devlin, on the bases; Bridwell, short, and Devore, Seymour, and Murray in the outfield.

### Record Number of Errors

According to many old-timers, the largest number of errors ever made, on one chance came off one afternoon, when Mike Grady tried to play third. He fumbled a grounder, then it wild over first, nuzzled the throw-back and threw it over the catcher. That was surely gone.

## MAROONS ARE SIGNING UP

Beattie, Speiser, Anderson and Krueger have all affixed their signatures. New South Paw Corralled is President.

Frank Lohr, the manager of the Winnipeg Maroons, is receiving more mail these days than all the other guests of the hotel put together. Frank has letters pouring in from all parts of Canada and the States from would-be members of the local team, and from others who have their job already clinched.

Jerry Edwards was first to send in his contract, and now Beattie, Speiser, Anderson and Krueger have all followed suit. Beattie wrote from Toronto saying that he was in the very first trim and just longing to report. He has been training with the eastern ball tossers. Jack will again figure in the initial sack. Speiser wrote from Minneapolis, Anderson, the catcher from Whitefish, Wis., and Krueger from Two Rivers, Wisconsin. They all say they are in fine trim and are in A. A. condition.

The Winnipeg pitching staff will be strengthened with a southpaw who made a name for himself on the Pacific coast last season. Frank does not wish his name mentioned until he has finally landed him.

The recruits who now have their home in the city had another practice yesterday afternoon and showed good form for so early in the season. The little manager ran around after the pill as fast as any of them and it is very evident that he will have no trouble with the fractured limb this year. Pitcher Joe Miller made a favorable impression.

### EDMONTON OPENS ON ROAD

There is a well-developed rumor about town that the Edmonton baseball club will open the season away from home and that they will be away for the entire season.

This question will not be settled favorably by the fans, as the team commenced last season on the road, and the faithful were expecting a game here on May 4th.

**COTTER WILL  
GO TO ENGLAND**

He and his Trainer Sail on May 21st.

The Runner Will Represent Canada in the English Marathon.

Edmonton will be represented in England this year by a long distance runner, of whom great things are expected.

He is to start in the big English Marathon which will be run from Windsor to the Stadium on May 21. Eddie Cotter is the name of the young athlete. Cotter will be the Brainard-Hamilton Marathon road race on May 24 of last year. He and his trainer Dick Baker leave for England on April 13. The English course will not be strange to Cotter, as he ran in the Olympic Marathon and also in the trial held by the Canadian runners previous to the Olympic race when Simpson ran twenty miles in 1 hour 58 minutes, with Cotter only a couple of hundred yards behind. Since the historic race Cotter has gained experience and should make his name a household word.

**A Pitcher Wonder**

An application has also received today from a pitcher whose name will not be made public until he is cinched. This man, if signed, will prove to be the clearest flinger in the league. He is a friend of Pete Morse's and wants to play on the same team as the new Edmonton short stop. Just glance at this record. In 1907, he pitched for one of the leading teams in the North Western League and ended the season with the remarkable record of 27 games won and 15 defeats, a pitching average of .632. If Deacon secures this man, there is every indication that he will, it is going to be a terrible fight for places on the pitching staff. When the time comes for the cut-down, Edmonton will only carry twelve men, as that is all that the league salary limit will allow. Three of the twelve will be pitchers, and with the seven men now in view, the competition will certainly be keen.

### Novel Scheme to see Fight

New York, April 5.—We want to know how much money to go to Frisco to see the big fight between Jeffries and Johnson? This new form of "Black Hand" letter was received today by Max Rubinfeld, a Jersey City merchant, who was threatened with death unless he deposited \$300 in a designated spot. The letter was turned over to the police.

### The Passing of Schmidt

Charles Schmidt, of Detroit, veteran of several seasons and participant in the last three world's champion ship series, will not be a regular catcher of the Detroit team this year. Oscar Stagney will in all probability be the first catcher, while Joseph Casey stands a fair chance of being the second man, and "Heine" Beckendorff will be worked now and then. Schmidt will also get a chance.

**Some Report This Week**

If the weather retains its present spring-like humidity, Deacon will bring Larstrand, and Mills, who are in

## BRENNAN AND LUSSI SEND IN THE CONTRACTS

Every Man That Deacon Has Had in View Has Now Signed Up. Olsen the Last to Sign.

### COMPETITION FOR THE TEAM WILL BE KEEN

Only Twelve Regulars Will be Carried, So a Lot of Weeding Out is Necessary.—A Pitcher is in View Who Won 27 Games Out of 42 in the North-Western League. Barnstead, Mills and Copland May Report This Week.—Games With Crist's Rolls Assured.—Burridge is Very Doubtful.

Well, Johanne Brennan's signed contract was received at headquarters this morning, and Deacon is all smiles. Brennan was beginning to get worried about his star second baseman, and was minding his pot, everything.

It appears that Brennan has signed up in the north country for several months, which accounts for him not receiving any mail. He expects to have the best season in his career, and says that he is determined to make a name for himself. As Jack's one failing last season was a disposition to carelessness, he evidently is out to fight against his weakness. When John Brennan is playing under a manager in whom he has confidence, he is a star of the first magnitude, and it is out to "show" the Edmonton baseball fans this season. Brennan says that Peterboro reports say that Burridge's arm has gone back on him. This will occasion Deacon to procure another experienced catcher, though he already has Copland and Bill Lussi on the roster.

Brennan is anxious to get into the game and would like to leave for the team. He is to be with the team, and to make good in the faster company.

Bill Lussi gets in shape, there is no better pitcher in the Western Canadian League, but he will have to show more care than he did last season to make it.

J. H. Wallace, West Thornton, writes that he would like to try out with Edmonton. He is a catcher who has played with Oswego, Elmira, and other Empire State Leagues. It is not likely that he will be needed.

**Players Report on April 12th.**

Transportation is now being sent out to the players and they are all ordered to report in Edmonton on April 15th. No time will be lost in getting down to their work and Deacon will put them through their paces both mornings and afternoons. The last week preliminary to the season opening on the fourth of May, will be given over to practice games with Crist's rolls.

The new uniforms will be shipped from Chicago on April 13th and this item will relieve the anxiety of John Brennan, who asked anxiously in his letter "whether we are going to have the same old green suits?"

Deacon is very anxious to take a flying trip to the Coast in order that he can look over the surplus talent of the Coast League teams. He would also like to take a run down to Seattle to have a talk with Ray Morris, who is showing some evidence of assuming the hold-out attitude, made famous by Kling and Mike Donlin.

Vicarman, trustee of the Rooters' Club, is dabbling in assassination football at present. But don't think for a minute that he has forsaken baseball. Far from it. He is merely taking outdoor exercise for the last few weeks when he is not at his office, and always hits around at Hilltop, Morris, whom he has had a good situation. The signing of Olsen practically completes the outfit and makes the race for positions a pretty one. It is not likely that Wester and Riley will be asked to report as Deacon does not think they will be fast enough to make the team.

**Lussi's Contract Received**

Bill Lussi sent in his contract from Seattle today and the team is now officially intact. Lussi will hold down right field, and will also be used as a change catcher. He is too well known to local fans to need any introduction, as his heavy hitting in 1907 made his name a household word.

**A Pitcher Wonder**

An application has also received today from a pitcher whose name will not be made public until he is cinched. This man, if signed, will prove to be the clearest flinger in the league. He is a friend of Pete Morse's and wants to play on the same team as the new Edmonton short stop. Just glance at this record. In 1907, he pitched for one of the leading teams in the North Western League and ended the season with the remarkable record of 27 games won and 15 defeats, a pitching average of .632. If Deacon secures this man, there is every indication that he will, it is going to be a terrible fight for places on the pitching staff. When the time comes for the cut-down, Edmonton will only carry twelve men, as that is all that the league salary limit will allow. Three of the twelve will be pitchers, and with the seven men now in view, the competition will certainly be keen.

**Some Report This Week**

If the weather retains its present spring-like humidity, Deacon will bring Larstrand, and Mills, who are in

Calgary, April 5.—The following are the official averages of the Calgary bowling league. Jim Mitchell of the Caledonian team wins the average with 183.57. The same bowler also won high single game with 264. For the three strings, Bert Bowser with 641 won in this competition. The league stands first with Ramblers, Y. M. C. A., University, Wandervogel, and C. P. R. in that order. The results are:

**Team Champions**

Caledonian played 54, won 44, lost 10, average 815. J. Mitchell, captain.

**Average**

J. Mitchell, Caledonian, 183.57.

**Single String**

J. Mitchell, 264, Caledonian.

**Three Strings**

Bert Bowser, 641—Ramblers.

**With the Majors.**

Philadelphia, April 1.—The National Leaguers captured the first game for the local championship today after a slow but well-played contest. The Athletics found Maroney's delivery was something beyond their ken. Up to the seventh the Athletics only got two hits off Maroney, but then the right-handers showed signs of distress and they lumped seven in the next two innings. Dwyer's splinters were also a mark in the sixth. Magee following two singles and a pass with a drive to the fence for the circuit. Athletics .300 .000 .000 1—0 0 Quakers .333 .000 .000 0—0 11 1.

Batters—Connors, Dwyer and Livingstone; Maroney and Cheek; Umpires, Connolly and Moran.

At Pueblo—White Six Youngsters 0, Pueblo 4.

At Louisville—Chicago Nationals, 7; Louisville, 2.

At Champaign—Milwaukee 8; Illinois, 1.

At New Orleans—Cleveland 9; New Orleans, 2.

At Montgomery—Cleveland Youngsters, 3; Montgomery 9.

At Atlanta—Boston Nationals 6; Atlanta 7.

At Mobile—Mobile 4, Detroit 1.

At Greenville S.C.—New York Nationals, 3; Greenville 0.

At Hot Springs—Pittsburg Regulars 3; Youngsters 2.

**COMING TO EDMONTON**

All international football records went by the boards when the Corinthians played France and won by 20 goals to nil. The Corinthian style of forward play has never been exceeded, but a score of 20 goals must be astonishing no matter who the contestants were.

## BARNESLEY WINS IN THE CUP TIES

This Team, by its Victory Over Everton, is the Hero of British Football. Play the Finals on April 23rd.

The victory of Barnesley over Everton in the semi-final for the English association is one of the biggest surprises ever provided by the cup ties fruitful of this class of competition always is in the unexpected. Barnesley fans will realize how the result appears to footballers when it is said that it is something like as if the Edmonton club entered in to a big competition involving the whole of the American continent and defeated the "Chicago Cubs" in the semi-final.

The Everton club is the wealthiest football organization in the world. It is backed by the city of Liverpool, which, with its suburbs, has a population over a million. Everton have often as many as a hundred players of reputation on their books. The agents of the club are to be found on the ground where players of promise may be picked up. The organization's resources are almost boundless.

Barnesley is a second division club that has to rely largely on local talent. It is true that it is the centre of a great playing district that has produced many expert players of the game, but men of mark are quickly snatched up by the teams that can provide greater inducements. Little Barnesley are therefore the heroes of the British football firmament, but they have to face a stiff opposition in Newcastle United for the final.

**CALGARY BOWLING RESULTS**

Calgary, April 5.—The following are the official averages of the Calgary bowling league.

Jim Mitchell of the Caledonian team wins the average with 183.57. The same bowler also won high single game with 264.

For the three strings, Bert Bowser with 641 won in this competition. The league stands first with Ramblers, Y. M. C. A., University, Wandervogel, and C. P. R. in that order. The results are:

**Team Champions**

Caledonian played 54, won 44, lost 10, average 815. J. Mitchell, captain.

**Average**

J. Mitchell, 183.57.

**Single String**

J. Mitchell, 264, Caledonian.

**Three Strings**

Bert Bowser, 641—Ramblers.

**With the Majors.**

Philadelphia, April 1.—The National Leaguers captured the first game for the local championship today after a slow but well-played contest. The Athletics found Maroney's delivery was something beyond their ken. Up to the seventh the Athletics only got two hits off Maroney, but then the right-handers showed signs of distress and they lumped seven in the next two innings. Dwyer's splinters were also a mark in the sixth. Magee following two singles and a pass with a drive to the fence for the circuit. Athletics .300 .000 .000 1—0 0 Quakers .333 .000 .000 0—0 11 1.

Batters—Connors, Dwyer and Livingstone; Maroney and Cheek; Umpires, Connolly and Moran.

At Pueblo—White Six Youngsters 0, Pueblo 4.

At Louisville—Chicago Nationals, 7; Louisville, 2.

At Champaign—Milwaukee 8; Illinois, 1.

At New Orleans—Cleveland 9; New Orleans, 2.

At Montgomery—Cleveland Youngsters, 3; Montgomery 9.

At Atlanta—Boston Nationals 6; Atlanta 7.

At Mobile—Mobile 4, Detroit 1.

At Greenville S.C.—New York Nationals, 3; Greenville 0.

At Hot Springs—Pittsburg Regulars 3; Youngsters 2.

The Sporting Editor of the Daily Capital will be pleased to receive and publish announcements and reports of athletic meetings or any live news pertaining to sport. Address "Sporting Editor," Daily Capital, or telephone 2322.

## BACK TO HIS OWN PEOPLE

Acose, Having Satisfied His Life's Ambition in Defeating Longboat, Returns to the West.

Toronto, April 5.—With the ambition of his life satisfied a little wizened Indian elated aboard the C. P. R. train for the west last night, stolidly curled up in a seat and went to sleep. That Redskin was Paul Acose.

Since Saturday night when he defeated Tom Longboat, and won the Indian championship, he has been lethargic. The restless Acose, by his snapping eyes and eagerness to train which characterized him before the race disappeared. He didn't care a continental whether he went to New York for the big derby or not. The \$10,000 prize didn't look any bigger than a pint of beans to him. All he wanted was to get back to his tribesmen and tell them that he had lowered the crest of the mighty Longboat.

"When I go back this time and they ask me if I have beaten Longboat I will say 'Yes,'" he confided to Tim O'Rourke yesterday, "and the whole band will be proud of me."

And so the gaunt-faced, beady Salteaux Indian turned his face to the setting sun and hiked.

**Y. M. C. A. NOTES**

Vast improvements are being made in the Y. M. C. A. gymnasium. The balcony track is being banked and will prove a great boon to athletes wishing to train indoors during the rainy weather. It is expected, in the course of a few months that a cork covering will be laid on the track.

In the Y. M. C. A. bowling league Blackett took ten games of three from Jack Keating team. However, there is one man yet to bowl on each quintette and their scores may change the result materially.

A meeting of all those interested in lacrosse is called for this evening at the Y. M. C. A. The Edmonton lacrosse club will organize for 1910.

New York, April 5.—Revision of the baseball rules in the interest of mildness and roundness along the lines presumably of suggested football revision is urged upon President Thomas J. Lynch of the National League in a letter he has received from a New York fan.

"The breaking of the ankle of the captain of the Yale baseball team and he fractured hand received by a catcher of the same team demonstrates conclusively," says the writer that there is something fundamentally wrong with the game. It seems almost worse than a gladiatorial contest when our young men must be exposed to the continual flight of a cannon ball.

"Unless baseball men themselves institute a reform the state legislatures will surely take up the matter. Some changes I suggest are:

"Make the diamond about twice the present size to avoid danger from collision, substitute a tennis ball for the present iron arrangement, thus eliminating half the danger of the game and making the fielder's work less spectacular; remove the present kind of bases and substitute wicker chairs, so that the runners may recuperate while the ball is being served by the pitcher."

"There is no indication that Mr. Lynch takes the suggestions too seriously."

## KLONDIKE A BUSY PLACE THIS YEAR

**Great Development Works are Planned and Large Quantities of Machinery are Going in.**

Dawson, V.T., April 5.—The big spring that has begun and an awakening is coming along the entire Yukon for a season of activity. The Klondike is preparing to operate twelve large dredges, and a score of hydraulic plants on many individual placer properties this season.

The largest new enterprise, the Klondield, a new company, will build a ditch seven miles long, from the north fork of the Klondike, carrying 15,000 inches, virtually a small river, to generate power for the lifting of water for hydraulic purposes to high levels not hitherto supplied. One hundred and fifty tons of material, including two steam shovels were

taken to the property last week. Treadgold has been in New York, Ottawa and Europe all winter completing the company's purchases of several creeks with a total cost of millions.

The Northern Light & Coal company is putting on large crews to complete a \$3,000,000 plant. The machinery will reach here in June from England. The Five Fingers Coal company is investing several million dollars opening its collieries and building boats. Other big companies are starting, and steamer lines are all preparing to start operations in May or June. Dawson people alone are spending \$250,000 this year in developing quartz.

## CANADA NEED FEAR NO CAR SHORTAGE

**Railway Officials in Montreal Say Their Roads Will be Able To Handle Traffic.**

Montreal, April 5.—In regard to the highly alarming interview given by Mr. J. J. Hill at Chicago, predicting the worst traffic congestion in history for the coming autumn, a number of freight and transportation officers of both the Grand Trunk and of the C. P. R. declare that Mr. Hill was inclined to exaggerate. Even if his deductions were true for the United States, which they doubt, they would not apply in Canada. At the same time they admitted that the traffic movement is steadily increasing and with a big harvest in 1910 it is not improbable that the resources of the Canadian companies will be

overly taxed to meet the situation. Anything like a car famine is however considered improbable, as both the Canadian Pacific and Grand Trunk are adding steadily to their rolling stock and increasing their mileage and improving transportation facilities generally.

The speedy return of cars consigned for the use of shippers either for loading or unloading is a material help in preventing traffic congestion. "It is undoubtedly a difficult matter," said a Grand Trunk official, "for some American roads to be fully equipped, increasing transportation facilities in the United States at the present time owing to the traffic regulations passed in some of the states against the railroads."

Mr. Hill says the American roads ought to have about \$1,800,000 annually to spend for the next few years in order to catch up with the growing demands made upon them, but they cannot get the money under present conditions.

## WAR CERTAIN IN FAR EAST

**French Admiral Says Japan is Aiming Against United States.**

### INTERESTS ANTAGONISTIC

**Japan Fears Present Friendly Relations May End in Alliance With China.**

Paris, April 5.—The memoirs of Vice-Admiral Fourrier, commander of the Mediterranean squadron of the French navy, in which he discussed particularly the possibility of a war between the United States and Japan, and the resultant danger of dragging all Europe into a terrible conflict are now being published. The memoirs cause something of a sensation in political and diplomatic circles.

Admiral Fourrier accords the star role on the stage of international politics to the German emperor—not only in Europe, says the writer, where the Emperor is trying desperately to circumvent the league of powers against him, but also indirectly as an influential factor in the relations between the United States and Japan.

Admiral Fourrier says that it is useless to deny any possibility of war between the United States and Japan, as a result of popular irritation in America should Japan's demands or Japan's policies of absorption prove intolerable to Uncle Sam's excessive self-esteem and prospects in the Far East.

Those interests, the Admiral adds, are antagonistic to those of Japan, which, being pushed on by fate to expand on the Asiatic continent by conquest or diplomatic victory, seeks to become predominant in the very regions which the United States protects in supporting the integrity of China and the policy of the "open door."

The Admiral declares that Japan's great fear is that the friendly relations between the United States and China will culminate in an out and out alliance, and thus in the event of war the United States would have a base of operations and general resources superior to the Philippines.

Japan's increased armaments, therefore, are explainable, not as a menace to Russia, but in preparation to combat, before it is too late, the peril contained in America's policies.

In case of a hostile coalition of the United States with the Triple Alliance the admiral believes that France would be forced to supplement the forces of England, Japan and Russia. He doubts, however, that the German Emperor, "although devoured by a desire to smash the League," and adopting a diplomacy as unsuspicious as that of their own chancellor, would enter upon the perilous venture of such a war, which would offer little chance of victory on land or sea."

All who are pushing this movement have pledged themselves to meet the catalogue prices of any reputable mail order house in any lines they may individually handle, and they claim that in many instances it costs a good deal less when the express charges are taken into account. In one instance, Fowle's recently was selling certain brooches at 75¢ and 75¢ which were actually advertised by Eastern firms at 75¢ and 95¢ respectively; in addition to the extra 10¢ tax, the public were asked to pay the express charges. It "went," and no doubt numbers bought these brooches and thought they got a bargain. They did not stop to enquire of the local jeweller what he could sell. The catalogue said it was the best value on the market, and therefore people thought that it must be true. It is probable that many thousands of dollars annually find their way East just for such instances as these.

The Russian Boys Band at the Empire this week is one of the best turns that has been seen in Edmonton for many a month. On their peculiar Russian instruments they render some very characteristic music, and receive many well deserved encores. The leader, in his Slavic uniform, is a study in himself, with his peculiar style. He leads the band, not with his hands only, but with his whole body. Two of the boys do a Cossack dance that is something quite different from the usual style of stepping that is seen on the stage.

The Leslie Sisters sing some songs in a pleasing way; one of which, "The Bogie Man," is set to a catchy tune. They also dance. Arthur and Emma Christy also have a song and dance turn that is above the average. Emma is a pretty girl, and Arthur knows how to do some nifty clog steps.

Carfield and Driver present a sketch, "The Section Boss," that brings a good many laughs from the audience. Some of the jokes are of the burlesque order, but the crowd seem to enjoy them.

At Frounce there's a "monologue" bicycle stand that requires a deal of polish. He does come really clever stunts, however.

"Can't You Keep a Secret," is the illustrated song this week, and it sets the crowd humming. The Empire scope completes a bill that fully repaid the crowd that packed the house last night.

### EDMONTON BARGAIN WEEK.

### CONTRACTORS ARE IDLE

**Little Railroad Construction in United States Because of High Prices.**

New York, April 5.—D. J. McDonald, of Aurora, Ill., who is one of the largest railway contractors in the Middle West, takes a gloomy view of the general situation from the standpoint of a contractor.

"At present," he said, "there are only two really big things being done in this country in the construction line—the irrigation projects of the Government and the Creton works, and public works are being let at unsatisfactory prices. This is due to competition."

"I think the railroads are willing to pay good prices," he said, "but that such costs do not pay the people back the idea that they can get along with less expenditure. Most contractors nowadays submit the work and responsibilities on somebody else. Few of the bigger contractors now have any outfit of their own. My plant has been at Johnson City, Tenn., ever since last May, and has been idle since that time."

"There is plenty of work, but the prices are not good. There is a scarcity of unskilled labor and when labor is scarce it is not good. There does not seem to be any of the good old kind of labor to be had. The gas, water and street railway companies in the cities have a good portion of it. They can give the men steady work and can afford to pay the men a little higher price."

### FAIR IN TOFIELD

**Agricultural Society is Discussing the Possibilities of the Project.**

Tofield, Alta., April 5.—The Tofield Agricultural Society formally organized last Saturday afternoon. The first annual meeting at which officers for the current year were elected. The officers are: Hon. president, N. J. Jennings, Bardo; president, B. B. Anderson, Bardo; vice-president, Sam Stirett, Farmington; I. H. Olsen, Bardo; Directors, Angus Campbell and J. Fletcher, Kingman; W. Lemire Logan, E. A. Hoffel, and John Jeuring, Bardo; A. Story, J. W. Morton and J. M. McGinnis, Tofield; and B. F. Wildman, Spulster. Auditors, R. J. Stirtell, Farmington, and J. A. Shaw, Tofield.

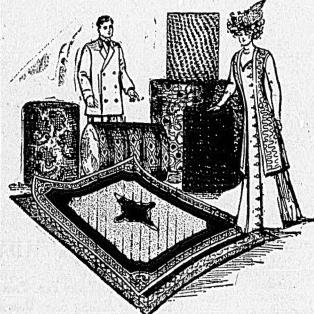

At a meeting of the majority of the board immediately after the close of the annual meeting, J. W. Morton was appointed secretary and it was decided that if at all possible a date be secured for a Tofield fair on either Sept. 27th or 28th.

### The Conciliation Board.

Ottawa, April 5.—A board of conciliation and investigation has been appointed to inquire into the question of wages and working hours on the Grand Trunk and Canadian Pacific railways. This enquiry has been pending for some time. The board is J. O'Donnoughue, Toronto, for the men; Wallace Nesbitt, K.C., Toronto, for the companies, and J. E. Atkinson, Toronto, chairman.

308 JASPER AVENUE

EDMONTON

**May Boycott San Francisco.**

Honolulu, April 5.—The proposed opposition to San Francisco to the suspension of the coastwise navigation act so far as it affects shipping between Hawaii and the Pacific coast, has aroused considerable feeling here.

A proposition to boycott San Francisco and transfer the trade with the islands to some other port has been freely discussed by local merchants. It has been decided, however, not to inaugurate a boycott movement but to strongly protest against the action of San Francisco in offering opposition to the suspension of the coastwise regulation between Hawaii and the States.

**Humor and Philosophy**

By DUNCAN M. SMITH

**A MENTAL MISHAP.**

A TRAIN of thought is not equipped with whiskers and with bristles, Noddy, but it is most abundant. And sudden stops it makes, with no attachment to the wheels. It is a queer sort of vehicle, and that is why you often hear about it in a wreath.

When the production of the train begins, it has a certain momentum. It runs along without mishap and takes him anywhere. But when a bill collector calls and there is cash to pay At once the wheels jump up. And spoils the right of way.

A pleasant train to ride—The passengers are gay. No, they are not, they are sulking. And says, "Get off or pay?" But oh, it is a risky trip, and the driver is not bright. For there may be a dozen wrecks. Just a single night!

The Little Lady, "Ethel wouldn't like to have a little baby brother left at your house?" "Baby brother?" "Yes." "I need one, ma." "Why not?"

"Because babies are too common for anything. It's just like our washerwoman."

Making it plain. "You write to your girl friends on a typewriter?"

"I do."

"Isn't that bad form?"

"I don't know about that, but it is safe. I wrote such a miserable hand that when they can't make out a sentence they take it for a proposal!"

Probably.

"You never can tell what a woman will say."

"That may be, but there is another kick."

"What is it?"

"Because babies are too common for anything. It's just like our washerwoman."

Making it plain.

"You write to your girl friends on a typewriter?"

"I do."

"Isn't that bad form?"

"I don't know about that, but it is safe. I wrote such a miserable hand that when they can't make out a sentence they take it for a proposal!"

"Isn't that bad form?"

"I don't know about that, but it is safe. I wrote such a miserable hand that when they can't make out a sentence they take it for a proposal!"

Probably.

"You never can tell what a woman will say."

"That may be, but there is another kick."

"What is it?"

"Because babies are too common for anything. It's just like our washerwoman."

Making it plain.

"You write to your girl friends on a typewriter?"

"I do."

"Isn't that bad form?"

"I don't know about that, but it is safe. I wrote such a miserable hand that when they can't make out a sentence they take it for a proposal!"

Probably.

The advertiser desires to secure a building in a central location, close to business and residential areas, and would be glad to hear from property-owners who would be willing to erect a building, according to his requirements, on which he would take a long-term lease. Box 10, Capital.

Judge Noel is holding district court at Red Deer today.

The Imperial Bank of Canada has declared a dividend payable the 20th of April, 1910, at the rate of 11 per cent. This dividend will be payable on May 2nd.

The following permits have been issued by the building inspector: W. McCallum, Fifth street, residence, \$2,000; and H. McDonald, Kirkness Street, residence, \$1,200.

Manager Garrison of the Edmonton Exhibition received a letter from the C.P.R. this morning stating that they would be pleased to offer \$100 for special prizes in the five stock section. The railways have acted very generously towards the Exhibition. In addition to the above mentioned prize the C.N.R. have given \$200 and the G.T.P. \$100.

A lecture will be given tonight at 8 p.m. by Rev. Father Simard, O.M.I., D.D., in the Immaculate Conception church. The subject will be "The Pope and His Authority" and as Rev. Simard spent eight years in Rome, his address will be very interesting.

On Wednesday evening at 8 o'clock, a mock parliament will be held in the Knights of Columbus Hall on Jasper Avenue. The government will introduce an act in favor of government ownership of railways and a lively debate thereon will follow. Speakers for and against have been appointed. All Catholics, ladies and gentlemen, are invited to be present.

It's a fact, sir, that the road to prosperity is paved with good clothes, and is most easily trod by men who always dress in becoming attire. See our new Spring Suits. Mac's Clothing Store.

P. G. McLean of Calgary is in the city today.

A. Macdonald of Winnipeg, head of the A. Macdonald Company, is paying a visit to the Edmonton branch.

Mrs. Arthur Murphy leaves on Wednesday for Rochester, Minnesota, where she will undergo an operation at the hospital of the Doctors Mayo.

Professor H. A. Tory, brother of Senator Tory of the University of Alberta, is dead. Professor Tory was assistant professor in the department of chemistry at Harvard University.

Mr. Arthur Alfred Yuley of Cooking Lake was married last evening to Miss Daisy Ethel Lee, 85a St. James street.

Rev. J. E. D. Euloe performed the ceremony.

At Mr. Bowker's residence, Fifteenth street, this afternoon, a presentation will be made to Rev. Robert Jefferson, rector of Chris Church, in honor of his marriage to Miss Strong on Thursday next.

A. J. Robertson, leader of the opposition in the last Alberta legislature, has moved from Nanaimo to Bassano, where he has made extensive investments and opened a real estate office.

A Medicine Hat despatch says: Hon. W. T. Finlay, who has been very ill in Guelph, Ont., is much improved in health, and may be able to take his seat in the legislature in May.

Residents of Fort Saskatchewan will hear with regret of the death of Mr. Henry Brown of Calgary. Mr. Brown who was eighty years of age and had been a resident of Calgary for the past twenty-four years, was the father of Mrs. R. Walton of the Fort and was well known at the latter place.

His death occurred very suddenly on Saturday last from organic heart trouble. While out taking a walk he dropped to the sidewalk and although help was immediately forthcoming he died before it could reach him.

The regular meeting of Friendship Lodge, No. 7, I.O.O.F., will be held on Friday evening. At this meeting a team will be selected to confer the first degree at the union meeting of all the Edmonton lodges which will be held on Thursday next to receive an official visit from V. C. French of Wetaskiwin, grand master of the Grand Lodge of Alberta.

The action of the plaintiff in the case of Gillis vs. Bellingtone was dismissed in the Supreme Court this morning before Justice Stuart. His Lordship reserved judgement as to costs. The counter-claim was withdrawn. Mr. Morison of Vegreville appeared for the plaintiff, Mr. Landry of Careby &amp; Landry for the defendant.

The liquor license department of the province is very busy preparing the renewals for hotel and wholesale licenses at the present time. There are two hundred and forty of these annual licenses to be attended to and although they will not come before the license commissioners until sometime in May, Chief Inspector Devlin is getting along rapidly. Accordingly, where so many licenses are concerned, there will probably be some changes in that some renewals may be refused, but no information is available on this subject.

In the police court this morning John Lee, charged yesterday with driving a team and wagon over the sidewalk, was fined \$3 and costs. Sydney Holloway and Peter Williams, summoned by Sergt. McCallum for selling goods on the market without a license, were discharged, as it was discovered that they were not violating the bylaw. Sam Norman, one of the three charged with assaulting "Dicky" Campbell, has now laid a similar charge against William Campbell, the proprietor of the Castle Livery. The case will be tried this afternoon.

The fire department had a busy time yesterday afternoon, as they had four calls to various parts of the city to extinguish burning brush and rubbish.

At 12:35 No. 2 station was called to the brow of the Thirteenth street hill, where a spark from an A. Y. and P. engine had ignited the grass. At 2:20 No. 1 responded to put a fire out in some rubbish in the rear of the Purvis Co., and at 4:30 Nos. 1 and 3 were called to the Public Hospital grounds, where some burning grass and brush was endangering some of the outbuildings. At 4:55 the department was again called to the river bank, this time to the foot of McDougall street. Grass and brush near some shacks was responsible here. No. 1 responded.

**THE DAY IN STRATHCONA**

Budget of News from the City on the South Bank of the River

The council meets tonight at 8:15.

Rev. J. M. Millar will commence on Wednesday evening a series of weekly talks on Bunyan's "Pilgrim's Progress."

The funeral of the late Mrs. Sarah Jane Lockton was held yesterday at two o'clock from the home of Mr. E. G. D. Bonstead, on Fifth avenue. The deceased was the mother of Mrs. Bonstead and Mrs. J. Jackson. Interment took place in the Strathcona cemetery.

The Strathcona Electric Company moved yesterday from their former place of business to their new stand in the Archibald Block.

The Jas. Jas. Jas. Concert Company will give a concert in the Collegiate Assembly Hall on Friday, April 22nd.

Mr. Fox is supported by a strong company and will appear under the auspices of the students of the Collegiate Institute.

The public works committee is making extensive plans for the improvement of the city during this year. The pavement to be laid will include Whyte avenue, one block each way, iron and steel structures. Main street, one block north and one south and Fourth avenue north to Mr. J. Christie. Work on the excavating is proceeding very rapidly. Mr. Duncan intends putting up an essentially modern house. It will be of brick and will be a two-story structure.

**Yarmouth Factory Burned.**

Yarmouth, N.S., April 5.—The Higgins shoe factory was totally destroyed by fire yesterday afternoon and a Yarmouth industry is lost. Two men who were surrounded by flames in the fourth story and could be heard through dense clouds of smoke calling for help. Ladders were placed within their reach and they escaped with few burns, a third man had his arms badly burned and received internal injuries. The machinery and stock in the building are ruined.

**Nova Scotia's Education.**

Halifax, April 5.—According to a report in the house of assembly brought down yesterday by Premier Murray, public education in Nova Scotia last year cost \$1,290,834.

The technical college cost \$1,600, exclusive of equipment. The mileage of highway in this province, according to the report of the road commissioner, is 1,800 miles, and cost the province for upkeep \$247,000.

**Foster Not Retiring.**

Ottawa, April 5.—Hon. Geo. E. Foster declares that he has no intention of retiring from politics, and it is believed that Leader Borden will have some difficulty in carrying out his house-cleaning plans.
